A Christian can be forgiven for not reading the Bible--heck, it's a pretty big book after all. But there's no salvation for a fantasy fan who hasn't read the gospel of the genre, J.R.R. Tolkien's definitive three-book epic, *The Lord of the Rings* (encompassing *The Fellowship of the Ring*, *The Two Towers* and *The Return of the King*), and its charming precursor, *The Hobbit*. That many (if not most) fantasy works are in some way derivative of Tolkien is understood, but the influence of *The Lord of the Rings* is so universal that everybody from George Lucas to Led Zeppelin has appropriated it for one purpose or another. Not just revolutionary because it was groundbreaking, *The Lord of the Rings* is timeless because it's the product of a truly top-shelf mind. Tolkien was a distinguished linguist and Oxford scholar of dead languages, with strong ideas about the importance of myth and story and a deep appreciation of nature. His epic, 10 years in the making, recounts the Great War of the Ring and the closing of Middle-Earth's Third Age, a time when magic begins to fade from the world and men rise to dominance. Tolkien carefully details this transition with tremendous skill and love, creating in *The Lord of the Rings* a universal and all-embracing tale, a justly celebrated classic. --Paul Hughes, *Amazon.com* Pressestimmen

"For those who find the books too long-winded and the films too noisy, this is the perfect way to assimilate the myth and magic of Middle-earth" (*Guardian*) Werbetext

The complete BBC Radio 4 full cast dramatisation of J. R. R. Tolkien's celebrated fantasy trilogy.
