*Shyam Mehta*

## Física (Spanish Edition) Shyam Mehta

Modern physics is in a mess. More and more incredible theories are propounded about the universe consisting of strings or waves or hyper-dimensional knots or whatever. There is so much nonsense being proposed that one simply cannot believe that the human mind can dream such things.

This is a technical book, not designed for the 'common' man. A basic understanding of modern physics is assumed.

Essentially, it tweaks the findings of modern physics to make sense of everything in a simple way.
